I have been a resident of Ewa since 1989. Since then, I have seen rapid growth especially housing development. I want to be a part of this growth to provide leadership towards the comfort and well being of its residents.

My background comes from that of a "public servant". As a Registered Nurse, I have worked directly with patients and their families. I realized that I could help far more people if I become a legislator. With all the health care issues along with the increasing number of elderly, we need a representative that can understand and articulate these issues.

I am an Army Officer who served both Active Duty and the Reserves. Currently, I am a Major in the US Army Reserves. I am a trained leader who understands what "service" means. I am a service woman.

As a small business owner, I understand our fragile island economy. We need legislation that encourages more business friendly environment. I will work for lesser regulatory constraints. We need legislations that foster economic growth.

Ewa and Waipahu needs a multiple issue candidate that can address local issues such as traffic, crowded schools, and the "ice" epidemic. On the State level, I will work on health care issues such as the cost of medical insurance coverage, tort reforms, and reimbursement for direct health care providers.

I want to be your Representative and together we can get the job!
